THE APPLICATION IDENTIFIED ABOVE HAS BEEN EXAMINED AND IS ALLOWED FOR ISSUANCE AS A PATENT. PROSECUTION ON THE MERITS IS CLOSED. THIS NOTICE OF ALLOWANCE IS NOT A GRANT OF PATENT RIGHTS. THIS APPLICATION IS SUBJECT TO WITHDRAWAL FROM ISSUE AT THE INITIATIVE OF THE OFFICE OR UPON PETITION BY THE APPLICANT. SEE 37 CFR 1.313 AND MPEP 1308.

THE ISSUE FEE AND PUBLICATION FEE (IF REQUIRED) MUST BE PAID WITHIN THREE MONTHS FROM THE MAILING DATE OF THIS NOTICE OR THIS APPLICATION SHALL BE REGARDED AS ABANDONED. THIS STATUTORY PERIOD CANNOT BE EXTENDED. SEE 35 U.S.C. 151. THE ISSUE FEE DUE INDICATED ABOVE REFLECTS A CREDIT FOR ANY PREVIOUSLY PAID ISSUE FEE APPLIED IN THIS APPLICATION. THE PTOL-85B (OR AN EQUIVALENT) MUST BE RETURNED WITHIN THIS PERIOD EVEN IF NO FEE IS DUE OR THE APPLICATION WILL BE REGARDED AS ABANDONED.

HOW TO REPLY TO THIS NOTICE:

I. Review the SMALL ENTITY status shown above.

If the SMALL ENTITY is shown as YES, verify your current SMALL ENTITY status:

A. If the status is the same, pay the TOTAL FEE(S) DUE shown above.

B. If the status is changed, pay the PUBLICATION FEE (if required) and twice the amount of the ISSUE FEE shown above and notify the United States Patent and Trademark Office of the change in status, or

If the SMALL ENTITY is shown as NO:

A. Pay TOTAL FEE(S) DUE shown above, or

B. If applicant claimed SMALL ENTITY status before, or is now claiming SMALL ENTITY status, check the box below and enclose the PUBLICATION FEE and 1/2 the ISSUE FEE shown above.

☐ Applicant claims SMALL ENTITY status.
See 37 CFR 1.27.

II. PART B - FEE(S) TRANSMITTAL should be completed and returned to the United States Patent and Trademark Office (USPTO) with your ISSUE FEE and PUBLICATION FEE (if required). Even if the fee(s) have already been paid, Part B - Fee(s) Transmittal should be completed and returned. If you are charging the fee(s) to your deposit account, section "4b" of Part B - Fee(s) Transmittal should be completed and an extra copy of the form should be submitted.

III. All communications regarding this application must give the application number. Please direct all communications prior to issuance to Box ISSUE FEE unless advised to the contrary.

IMPORTANT REMINDER: Utility patents issuing on applications filed on or after Dec. 12, 1980 may require payment of maintenance fees. It is patentee's responsibility to ensure timely payment of maintenance fees when due.

PART B - FEE(S) TRANSMITTAL

**Complete and send this form, together with applicable fee(s), to: Mail Mail Stop ISSUE FEE
Commissioner for Patents
Alexandria, Virginia 22313-1450

Determination of Patent Term Extension under 35 U.S.C. 154 (b) (application filed after June 7, 1995 but prior to May 29, 2000)

The patent term extension is 0 days. Any patent to issue from the above identified application will include an indication of the 0 day extension on the front page.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term extension is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

DETAILED ACTION

Allowable Subject Matter

1. Claims 7-11&13 are allowable over the prior art of record.
2. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 7, the invention relates to a video signal recording and reproduction device and a video signal reproduction device that processes component video signals and composite video signals.

The closes references applicant admitted prior art Fig.13 and Hatae et al (US 6,091,880) and wherein Hatae teaches a signal processing method for processing video signals.

However, applicant's admitted prior art Fig.13 and Hatae et al fail to explicitly disclose a video signal recording and reproduction device where the recording and reproduction device further comprises input signal switching means provided between one terminal selected from the first signal input terminal, the second signal input terminal and the third signal input terminal, the one terminal used for receiving the composite video signal for the YC separation means, switching means for inputting a component video signal input in the one terminal used for receiving the composite video signal and one of an out signal of the YC separation means and an output signal of the color difference decoding means, and outputting one of the signals input

Art Unit: 2615

therein, and switching control means for outputting a signal for switching the input signal switching means and the switching means.

Regarding claim 8, the invention relates to a video signal recording and reproduction device and a video signal reproduction device that processes component video signals and composite video signals.

The closes references applicant admitted prior art Fig.13 and Hatae et al (US 6,091,880) and wherein Hatae teaches a signal processing method for processing video signals.

However, applicant admitted prior art Fig.13 and Hatae et al fail to explicitly disclose a video signal recording and reproduction device where the recording and reproduction device further comprises input signal switching means for outputting a signal input in one terminal used for receiving the composite video signal input terminal, to one of the YC separation means and video signal recording means, the one terminal is selected from the first signal input terminal, the second signal input terminal and the third signal input terminal and the switching control means for outputting a signal for switching the input signal switching means.

Regarding claim 9, the invention relates to a video signal recording and reproduction device and a video signal reproduction device that processes component video signals and composite video signals.

Art Unit: 2615

The closes references applicant admitted prior art Fig.14 and Marumoto et al (US 5,774,190) wherein Marumoto et al teach an encoder for converting digital display signals into analog television signals.

However, applicant admitted prior art Fig.14 and Marumoto et al fail to explicitly disclose a video signal reproduction device where the reproduction device further comprises a switching means for inputting an output of the adding means and an output signal from among the luminance signal reproduction means, the first color difference signal reproduction means and the second color difference signal reproduction means, and outputting one of the signals input therein, and wherein one terminal among the luminance signal output terminal, the first color difference signal output terminal and the second color difference signal output terminal is used commonly as a composite video signal output terminal.

Regarding claim 10, the invention relates to a video signal recording and reproduction device and a video signal reproduction device that processes component video signals and composite video signals.

The closes references applicant admitted prior art Fig.14 and Marumoto et al (US 5,774,190) wherein Marumoto et al teach an encoder for converting digital display signals into analog television signals.

However, applicant admitted prior art Fig.14 and Marumoto et al fail to explicitly disclose a video signal reproduction device where the reproduction device further comprises a

Art Unit: 2615

switch means provided between an output terminal of the color signal encoding means and an input terminal of the adding means for determining whether to add or not to add the carrier color signal of the color signal encoding means, and wherein the luminance signal output terminal is used commonly as a composite video signal output terminal.

Regarding claim 11, the invention relates to a video signal recording and reproduction device and a video signal reproduction device that processes component video signals and composite video signals.

The closes references applicant admitted prior art Fig.14 and Marumoto et al (US 5,774,190) wherein Marumoto et al teach an encoder for converting digital display signals into analog television signals.

However, applicant admitted prior art Fig.14 and Marumoto et al fail to explicitly disclose a video signal reproduction device where the reproduction device further comprises first switching means provided between an output terminal of the first color difference signal reproduction means and an input terminal of the color signal encoding means for turning on an off an output signal of the first color difference signal reproduction means, second switching means provided between an output terminal of the second color difference signal reproduction means and an input terminal of the color signal encoding means for turning on an off an output signal of the second color difference signal reproduction means, and output signal switching control means for controlling the first switching means and the second switching means.

Art Unit: 2615

Regarding claim 13, the invention relates to a video signal recording and reproduction device and a video signal reproduction device that processes component video signals and composite video signals.

The closest references applicant admitted prior art Fig.14 and Marumoto et al (US 5,774,190) wherein Marumoto et al teach an encoder for converting digital display signals into analog television signals.

However, applicant admitted prior art Fig.14 and Marumoto et al fail to explicitly disclose a video signal reproduction device where the reproduction device further comprises means for controlling whether to add or not to add the carrier color signal output by the color signal encoding means.

Conclusion

3.. Any inquiry concerning this communication or earlier communications from this examiner should be directed to Christopher Onuaku whose telephone number is (703) 308-7555. The examiner can normally be reached on Tuesday to Thursday from 7:30 am to 5:00 pm. The examiner can also be reached on alternate Monday.

If attempts to reach the examiner by telephone is unsuccessful, the examiner's supervisor, Andrew Christensen, can be reached on (703) 308-9644.

Any response to this action should be mailed to:

THAI TRAN
PRIMARY EXAMINER

June, 2003

Dear Patent Recipient

In a continuing effort to measure satisfaction with the patent process and performance standards, the United States Patent and Trademark Office (USPTO) is conducting the Patent Customer Satisfaction Survey for the eighth year. I am writing to strongly encourage your participation in this study.

The reverse side of this letter contains the survey questions. For those of you that have participated in past surveys, you will notice that we have drastically reduced the number of questions we are asking. Based on comments received, we are focusing this year's survey on three key areas:

- Written communications regarding the legal position of the examiner;
- Search; and
- Problem resolution.

Survey Instructions

The survey is voluntary. You were randomly selected to complete this survey from our database of customers who have recently received a patent in the **Computer Architecture, Software, and Electronic Commerce (2100)** technology area, either for themselves or on behalf of a client, in 2003. While we recognize that you may file patent applications in a variety of areas or receive multiple patents, we would like you to focus only on your experiences with the patent referenced in this mailing. Choose only one response for each question unless directed otherwise. A pre-addressed, postage-paid envelope is provided for you to return the completed survey.

Although this is a paper survey, you have the option of completing it electronically over the Internet. I encourage you to choose the Internet option.

To take the Internet survey, enter the URL <http://www.uspto.gov/surveys/surveyLogin.htm> and follow the directions below. If you respond to this survey using the Internet, please discard this paper survey.

1. Indicate which technology area this survey pertains to. The survey you have received pertains to: **Computer Architecture, Software, and Electronic Commerce (2100)**
2. Enter the User Name: **patents**
3. Enter the 8-digit Survey ID shown below

Survey ID:

09 446 790

4. Enter the password (case sensitive): **gXn886B**

Your prompt response to the survey, either by Internet or mail, is greatly appreciated.

Confidentiality

Be assured that all of your responses, either collected over the Internet or by mail, will remain confidential. Data will be used and published in summary format only. Because you are a valued customer to the USPTO, your opinions are very important to us and will be used to guide our future action planning.

Use of Survey Results

Based on the results of the previous surveys, we have implemented new initiatives to improve customer satisfaction and we have targeted others for implementation in the near future. Last year's survey results are available on the USPTO Web Page at "www.uspto.gov/ccrs/ccrdocument/ccr2002.pdf".

Questions?

If you have questions about completing the survey, or comments about improving the survey process or instruments, please contact Martin Rater, USPTO Center for Quality Services, on 703-305-4220 or via email at martin.rater@uspto.gov.

Thank you in advance for your participation.

Sincerely,

M. A. R. & S. N.
